POST EVENT REPORT

“

The event was really helpful for me in gaining key insights into Startups like Zomos. What are the key points/loopholes an investor will look for when investing in an idea? Also, what is meant by smart capital? At the end, the idea pitching session was really helpful for me and my teammates as we got a chance to pitch our idea in such an event, and we got some inputs/ key points on which we need to work. – R.VAIBHAV TEJA

It's rare to find a platform where early-stage founders get both exposure and mentorship in such a compact, well-curated format.

Definitely coming back for the next edition.
